

## Sébastien Paindestre trio

« How a man devoid of virtues which are appropriate for  
the man can be cultivate the music? »  
Confucius

Motivated by the creation of a personal musical project, and by the will to express me through a dialogue bass-batterie-piano, I write constructed compositions partially on the harmonious ambiguity stemming from the modal music jazz, of which some people can be enriched by the influence of the classical music.

Created in 2001, the Jazz band evolves of concerts in concerts towards a musical management faithful to my aesthetic requirements.  
Antoine and Jean-Claude follow me without restraint in this artistic trip and this human adventure ...
